Languages & Frameworks:

JavaScript, TypeScript, React.js,

Node.js, Express.js, Next.js, Java

UI/Styling: CSS3, SCSS, Tailwind CSS,

Carbon Design System, MUI, Chakra UI

State Management: Redux, React Query

Testing: Selenium

Databases: MySQL, PostgreSQL

Version Control & CI/CD:

Git, GitHub, Netlify, Vercel, Travis CI

AI: Claude, Copilot, Cursor, ChatGPT

Collaboration & Workflow:

Agile, JIRA, Slack, Microsoft Teams

LANGUAGES

- Bulgarian - Native
- English - Upper-Intermediate (B2)
- German - Intermediate (B1)

PROFILE

Frontend Developer with 4+ years of experience building React.js applications, including 2 years in a corporate environment (IBM) delivering production-grade, scalable solutions. Proficient in JavaScript (ES6+), TypeScript, and modern UI frameworks, with a strong focus on performance optimization, reusable component architecture, and seamless user experiences. Skilled in collaborating with cross-functional teams, integrating complex APIs, and applying Agile methodologies. Passionate about code quality, UI/UX best practices, and mentoring developers.

WORK EXPERIENCE

IBM Bulgaria

JUNE 2024 - PRESENT

Frontend Developer

- Built scalable React.js features with TypeScript, Redux, and React Query.
- Led front-end ownership of OMM module in IBM Support Insights, reducing development time by 30%.
- Improved performance with lazy loading, code splitting, and caching.
- Integrated RESTful APIs and implemented testing with Selenium.
- Collaborated closely with UX/UI designers to transform wireframes and prototypes into interactive, responsive web applications.
- Worked in Agile teams with CI/CD pipelines to streamline deployments.
- Mentored new developers, accelerating onboarding and team efficiency.

Freelance / Personal Projects

JANUARY 2022 - MAY 2024

Frontend Developer

- Developed React.js apps (dashboards, e-commerce, satellite networks, fintech, blogs, games).
- Built reusable components, optimized UX/UI, deployed via Netlify/Vercel.
- Implemented authentication flows, form validation, and API integrations.
